Dear Parents and Guardians,

As part of the Federal Government funding for all schools in Australia, Oxley High School is part of the Nationally Consistent Collection of Data (NCCD). We participated in this process in 2015 and will do so again in 2016.

Our school values the full range of accommodations and adjustments to teaching programs to maximise learning. We register these adjustments in the NCCD to ensure that all students are adequately funded in the classroom.

In order to continue our efforts to best support your child at school, all students are assessed to see if they suit any of the criteria of the NCCD. If you have any concerns regarding the NCCD please contact the school's Learning and Support Teachers, Jane King and Trenton Perkins on 67661677.

Yours in Education

Simon Bartlett-Taylor  
Principal
